CEREMONIAL GRADE MATCHA

AUTHENTIC STONE MILLED JAPANESE MATCHA

We use an authentic Japanese ishi-usu (stone mill) to grind our tencha fresh, in small batches. This traditional method creates a smooth creamy texture, preserves the vibrant green colour, creamy umami, and rich flavours that would be lost by other large scale methods.

DIRECT TRADE

We source high-grade single-estate tencha directly from renowned Japanese tea gardens. The estates are steeped in tradition, and excellence. Cultivation, shading, and processing are an artform, handed down over generations of families and farmers. Our selection is curated from multiple regions in order to showcase the extraordinary diversity of matcha flavours. We have carefully chosen teas that embody not just quality, unique character but also showcase the passionate people behind them. All our teas are trace-able all the way to the cultivar level.

FRESH MILLED & SEASONAL

Authentic ceremonial grade matcha is milled to an extremely fine particle size (50 times finer than espresso grind). This gives it a luxurious mouth feel, but it also means that it degrades fast. If you want to experience the complexity of an excellent matcha, freshness is key. By milling it fresh we are able to offer the freshest matcha in SA. It also means that we can keep seasonal tencha in its more stable form until the point of milling.
